

## Managed Private Cloud

Get access to a dedicated, secure private cloud environment that provides you with high performance computing in a cost-effective, scalable and efficient way.

Your cloud is designed and delivered to meet your exact business needs, be that on-premise or in a data centre. Enjoy access to a solution that provides you with the agility, capacity and ability to scale, all of which are essential elements to help you optimise your IT delivery in an ever-changing business landscape.

We provide you with the ability to choose the right computing platform for your specific workloads and then we seek to keep your critical applications and data secure and available 24x7x365.

Adopting a private cloud infrastructure is perfect when you need:

- ✦ Secure access to mission-critical business applications.
- ✦ To exercise greater control over your infrastructure, application and data.
- ✦ To guarantee your data sovereignty.
- ✦ To work on data that has demanding security requirements.
- ✦ To demonstrate compliance with industry regulations.
- ✦ Dedicated resources for applications that require higher performance.

## Managed Private Cloud Benefits

- ✔ **Host your applications and data on secure, dedicated infrastructure.**

Enjoy the enhanced security of dedicated, physically isolated network, compute and storage layers in an optimised data environment that provides you with access to high performance servers, consistency and 24x7x365 availability.
- ✔ **Efficiently manage and optimise your IT infrastructure performance.**

You have full control and can customise the dedicated compute, storage and networking components to best suit your business needs. If your priorities change then you have the flexibility to quickly and easily change your setup to meet those new priorities.
- ✔ **Improved availability and performance.**

Gain performance advantages over cloud platform options, with dedicated resources for your business and availability and quality of service guarantees.
- ✔ **More predictable, as well as lower costs.**

We deliver high-performance dedicated connectivity options that power your team, You are better able to manage your budget with fixed, OPEX based pricing based on your resource usage. That reduces your need to buy hardware and with a fully managed service, you enjoy reduced administration and support costs.

Enjoy access to a highly available, secure private cloud environment.

Our experienced technical team will work with you to deliver the highest level of service.
