

## Virtualisation Service

Get the most out of your IT Infrastructure investment by virtualising core services, reducing your costs, adding resilience and improving performance.

We will advise you on the services that would benefit most from virtualisation and then we will carefully plan, manage and test your migration to your new virtual environment following industry best practice and using proven technology solutions.

Virtualising can help you avoid the need to invest in more supporting IT infrastructure as your business grows, allowing you to run multiple instances on the same hardware at the same time.

Our virtualisation solutions will provide you with insight into your IT capacity and performance while ensuring that your business-critical applications run optimally at high service levels.

We can offer the following:

- ✧ Server Virtualisation
- ✧ Application Virtualisation
- ✧ Desktop Virtualisation
- ✧ Hardware Virtualisation
- ✧ Network Virtualisation
- ✧ Storage Virtualisation
- ✧ Operating System (OS) Virtualisation

Transform your technology platform with our proven end-to-end virtualisation solutions.

## Virtualisation Benefits

- ✓ **Lower your total cost of ownership by achieving higher capacity utilisation and making hardware and energy savings.**

Simplify your infrastructure setup while building in agility and scalability to support your business needs going forward, helping to ensure that you are future ready. Eliminate redundancy, accelerate IT service delivery and reduce operational and support costs, all while increasing performance.
- ✓ **Operational enhancements and improved ease of management.**

We will help you build, run and scale your business workloads, decreasing your time to market for business-critical applications, all while providing improved infrastructure management that will dramatically reduce your operational cost and increase the reliability of your systems. Management of virtualised solutions is highly efficient, with a number of proven tools available to automate routine tasks.
- ✓ **Get improved visibility, increased security, a higher quality of service, high availability and more flexibility to meet your ever-changing business needs.**

By virtualising your IT infrastructure, you do more than just lower your costs, you also get better visibility into your performance bottlenecks, can easily scale your systems and reallocate resources to meet your business demand. You get access to an automated, agile infrastructure that is easier to manage and control.
- ✓ **Backup and Recovery.**

Virtualisation makes backups and offsite replication for your data preservation and recovery purposes significantly easier. Virtualised solutions allow for mission-critical applications to be immediately available, with corrupted virtual systems able to be recovered in minutes. This is because the files that make up a virtual machine can be recovered to any suitable hardware without requiring any changes.

Discover how your business would benefit from your virtualisation.

Our experienced team will happily advise, plan and implement your virtualisation plans.

Discuss your Cloud Readiness Service needs by calling us on +44 203 034 2244 or +1 323 984 8908, or emailing [hello@cardonet.com](mailto:hello@cardonet.com)

## Our Technology Partners

## Virtualisation Service Features

- ✧ Reduced hardware costs and faster server provisioning and deployment.
- ✧ Increased uptime, security and availability.
- ✧ Improved backup and business continuity in-built.
- ✧ Proven energy savings and reduced support costs.
- ✧ Enhanced centralised management of virtualised technology.
- ✧ Improve system independence for enhanced availability and better performance scalability.

## Virtualisation Service Options

- ✧ Multiple Hardware Options.
- ✧ End-to-end virtualisation.
- ✧ Individual service virtualisation.

## Allowing you to do more

- ✧ Allocate the **cost savings** to other **valuable projects**.
- ✧ Get the most out of your **existing IT investment**.
- ✧ Enjoy added **security**.
- ✧ **Relax** knowing you can **back up** and **restore quickly and easily**.
- ✧ Enjoy **performance** and **availability enhancements**.
- ✧ Have a **happier, more productive team**.

## Our Commitments

### Our Team

We employ friendly professionals who have well-rounded experience, the ability to work in a team and a desire to be helpful.

### Our Processes

We continue to invest in our systems and have the standards in place for effective, streamlined and consistent service, customised to meet your needs.

### Our Mission

We are dedicated to providing remarkable IT services that improves your performance, increases your productivity and protects you.

### Our Promise

We value long-term relationships built on trust. To achieve that, we deliver fully supported vendor neutral solutions that are essential and reasonably priced.
