

## Outsourced IT Infrastructure

You need IT Infrastructure that works effectively, is secure, reliable and highly available, but find it is neither cost effective or easy to employ and retain your own experienced IT team.

By outsourcing your IT infrastructure services to us, you will enjoy access to leading technology designed to help you meet your business goals, reduce your costs, eliminate your risks and remove unnecessary systems complexity. That will help you maximise your return on your IT investment, improve your efficiency and provide you with the robust platform that you need to succeed.

Outsource your IT Infrastructure to us and we will look after your entire IT Infrastructure lifecycle, from initial planning and installation, all the way through to support, upgrading and decommissioning.

We are comfortable working on-premise or in a data-centre/cloud environment.

The types of outsourced IT Infrastructure projects that we can help you with include:

- ✧ Outsourced Server Infrastructure.
- ✧ Outsourced Storage Infrastructure.
- ✧ Outsourced Network Infrastructure - MPLS, WiFi etc.
- ✧ Outsourced Security Infrastructure.
- ✧ Outsourced Voice Infrastructure.
- ✧ Outsourced Backup and Disaster Recovery Infrastructure.

By taking advantage of our skills, knowledge and experience, you can enjoy the true business benefits of robust and integrated IT solutions that use proven technology from a single IT Services partner.

## Outsourced IT Infrastructure Benefits

- IT Infrastructure that aligns with your business goals and provides you with a positive return.

Our relationship is a good one when you have the most appropriate, well managed infrastructure for your business at any given time. Our challenge is to ensure that we cater for your current needs, while also providing the capacity to adapt to your future needs. That provides you with a lasting return on your investment.

- Delivery of a secure and consistent service that keeps your team happy and productive.

With the right outsourced IT Infrastructure and services in place, your team can enjoy secure anytime, anywhere access to your business-critical applications and data, helping improve their efficiency, ability to collaborate and productivity. Having modern, fully managed IT Infrastructure will allow your team to work to their full potential.

- Enjoy access to flexible, scalable and fully supported technology that will give you a competitive edge.

By outsourcing the provision of your IT Infrastructure, you can be confident that you are getting the right equipment for your needs. Equipment that has been designed to scale with your operations without major disruption and infrastructure that will streamline your operations and provide you with a competitive edge.

- Certainty, knowing that your IT Infrastructure is set up correctly and is fit for purpose.

You can rest easy knowing that our experienced engineers have designed and implemented an IT Infrastructure solution that has been specifically designed to meet your business needs. You know that the solution will work and work well. You will also know that should something go wrong that you have a partner with a local team of experts available to help 24x7x365.
