

Outsourced IT Security

You need to make sure that your critical data is secure at all times. By engaging with an experienced outsourced IT security partner, you can enjoy cost-effective, continuous protection and deep security insight.

You benefit from a better security setup, designed and supported by a team of IT Security experts who will look after your business IT security 24x7 and eliminate your ongoing IT security burden.

The number and variety of threats to technology has continued to grow. At the same time, the requirement for up-to-date security infrastructure and outsourced IT security has grown as well.

It is very difficult to attract and retain the skilled security experts that you need to keep up with and manage the resources you need to have in place to address your security concerns.

By outsourcing your IT Security, you will get access to an experienced team who will help you choose and integrate the right security products, services, people, processes, strategies and tactics for your business. We offer:

- ✦ Fully managed outsourced security services.
- ✦ Outsourced IT compliance and security risk consultancy.
- ✦ Outsourced IT security audits and testing.
- ✦ Help with your IT security strategy.
- ✦ Security architecture and implementation help.
- ✦ Threat and vulnerability management.
- ✦ Outsourced Incident management services.
- ✦ Security education and awareness training.

We will work with you to deliver continuous IT security protection and a consistent user experience across your diverse environments.

Outsourced IT Security Benefits

✔ **Enjoy a better security setup, while reducing your IT Security costs.**

By outsourcing your IT security to us, we will ensure that you get the most appropriate security infrastructure for your business and will provide you with access to a team of IT Security experts who would otherwise have been too costly or difficult to employ directly on a permanent basis.

✔ **Ensure your compliance in an ever-changing IT security landscape.**

We have the experience and the expertise to ensure that your IT Security platform remains compliant in the face of legal and industry requirements changing. Our outsourced IT security team will constantly be looking at ways of improving your setup in what is an evolving security threat landscape.

✔ **Get access to a team of IT security experts who are available to monitor your security 24x7x365.**

Keeping on top of your IT security can be a full-time endeavour. By engaging with us, you could get the peace of mind of knowing that your IT Security is up to accepted standards and is being monitored 24x7x365 in order to reduce the time for detection and response.

✔ **Eliminate the administration and maintenance burdens from your IT security.**

By outsourcing your IT security, you transfer the burden from your already stretched team to a trusted partner with experience rolling our robust and secure technology platforms. That leaves you and your team to focus on meeting more strategic needs of your business.

Outsource your IT security and reduce your vulnerabilities.

Our experienced IT security team will ensure that your business is always protected.

Discuss your Outsourced IT Security needs by calling us on +44 203 034 2244 or +1 323 984 8908, or emailing hello@cardonet.com
